XP Codec Pack 2.5.1
Homepage: www.xpcodecpack.com
----
supported by: www.codecs.com
hosted by: www.fre3.com

Changelog (February 21, 2010):
* Media Player Classic has been updated

Important!
* ALWAYS uninstall previous versions before installing the latest version of XP Codec Pack.
If you are unable to localize the Unistaller (usually you can find a link in Start menu: Start > All Programs > XP Codec Pack or you can access it directly from XP Codec Pack install directory: C:\Program Files\XP Codec Pack) try to reinstall the software.

Take care!
* You download and use this software entirely at your own risk. We don't offer support for it.
* You may freely download and use this software for personal purposes. You may not sell or distribute this software for profit!
